RE: Darkhorse Mtg 5/14/08

Hi Guy,

As a follow-up to our phone conversation this morning, I'm sending you my comments regarding the documentation from the May 14th meeting regarding the Darkhorse Wastewater Treatment Facility. I'd greatly appreciate your distributing this to the appropriate individuals within your organization.

I'm proposing the following changes be made to the tentative Order amending the WDRs for Darkhorse.

- Rewording of Item #5 to read: "Based on information provided by Nevada County Sanitation District, approximately 28 to 30 homes have been constructed, and approximately 23 of these homes are occupied."

(This is correctly stated in the Meeting Summary memo.)

- Rewording of Item #6 to change the words "golf course kitchen" to "golf course restrooms"

(This is correctly stated in the Meeting Summary memo.)

- Within the actual amendments, change the wording of Item #2 from "...any home that was occupied and connected to the sanitary sewer system before May 2008." to also include the few other homes (estimated 5-7) that may still be under construction or not currently occupied.

(The Meeting Summary memo also needs to be revised regarding this amendment.) I'll try to reconcile the property Parcel numbers with Gordon Plantenga to insure that the count of homes is accurately reflected.

Please let me know if the changes I've recommended are approved, and also advise if any other revisions are made. Thanks you again for including us in this meeting and sending the correspondence for our review.

Vicki Hawkins
